ABOUT ME

I am a passionate Full Stack Developer with a strong interest in building responsive, user-friendly, and scalable web applications. I have experience working with frontend technologies such as HTML, CSS, JavaScript, React, and backend technologies including PHP, Laravel, Node.js, and databases like MySQL and MongoDB. I enjoy solving real-world problems through clean and efficient code while continuously learning new technologies. I am looking for opportunities to grow as a developer and contribute to innovative projects.

PROJECT

Personal Portfolio Project(ramahazra.online) 2024-2025

- Develop modern, responsive, and user-friendly websites.
- Build creative web projects using modern frontend and backend technologies.
- Optimize website performance and deliver seamless user experiences.

Routine Management System(routine.ramahazra.online) 2025-2026

- Developed a responsive routine management system to organize and manage daily schedules.
- Implemented features for creating, updating, and tracking daily routines efficiently.
- Designed a user-friendly interface to improve productivity and simplify task management.

Beauty Parlour Project(beauty.ramahazra.online) 2026-Now

- Developed a modern, responsive beauty parlour website to showcase services and beauty treatments.
- Implemented service listings, appointment booking, and customer-friendly navigation.
- Designed an attractive user interface to enhance customer engagement and online bookings.
